

SAFE-P Navy Refill Kit.

A more easy and hygienic product for urinating under extreme conditions, a perfect option to all other solutions of different kind of nature such as diapers etc. One package contains;

- **One plastic urine bag containing super absorbent,** (volume roughly 2000 ml) to be placed inside the textile pocket. The urine bag is equipped with an anti pressure regulator connected to a plastic tubing for equalizing of the pressure, and a separate plastic tubing for urinating. **One connector** to connect the urine tubing to the Uridome. See further instruction leaflet.
- **Two Uridome,** with the size medium and large.
